PROFESSIONAL GRILLS

ABOUT SUMMERSET

Summerset Professional Grills offers a complete line of stainless steel grills, grill carts, BBQ Islands, fire pits, doors, drawers, components and more. Our commitment to quality is reflected in the craftsmanship of our product and is fully supported by the Summerset Warranty.

OVER 20 YEARS OF LEADERSHIP

Summerset Professional Grills is a company born of experience. With 20 years of leadership branding and manufacturing, our core focus is clear — to provide consumers with exceptional service and outstanding quality at a great value.

RELIABLE PRODUCTS FOR EVERY BUDGET

Summerset strives to meet every outdoor living expression. We offer a wide range of affordable products from our Sizzler Series all the way up to our Alturi Series, without sacrificing an ounce of quality. No matter the budget Summerset will deliver an outdoor experience that will create fond memories for years to come.

SUPERIOR QUALITY

Here at Summerset we pride ourselves on using only the best materials. All our products are made with the highest—grade stainless steel available, designed to withstand the high temperatures and greasy environments of outdoor cooking. We strive to maintain excellence in all we do and the result is a product you can count on.

SIZZLER SERIES

Quality you can afford. The latest addition to the Summerset line, the Sizzler Series is a premium product at an unbeatable price. Constructed in all #443 stainless steel* and designed with careful precision to ensure optimal airflow and even heating, this grill gives its higher-priced competitors a run for their money in both durability and grilling performance. The Sizzler will impress the most discriminating of grillers.

BURN IT ALL

We can argue all day about what fuel is “best” for a BBQ. Well, let’s kill the argument by burning it all. Park your stress and rev up this multi-fuel monster, enjoying the bounty of charcoal, gas, wood-chunks, pellets, and infrared, all in a single barbecue. Gas is convenient, so either cook with it, or simply use it to ignite your solid fuels in just seconds—or do it all. It’s the best of every world. The biggest decision you’ll make is how big you want it: 36 or 54 inches. Big, or BIG.
